PACKING TIPS

- **More space in your bag:** Don't fold. Rolling your clothes will give you considerably more space in your luggage.
- **Bring HALF the clothes that you need:** We have daily laundry service on board.
- **Two small or medium sized bags** are easier to transport than one giant duffel bag. It's also a good back-up strategy to pack two identical bags in case your luggage gets lost or delayed by the airlines.
- **Pack fragile/expensive items** in the interior of your luggage to prevent damage or loss. Better yet, leave them at home.
